3 Axis

MANIPULATION  
Plastics Injection

## SUPER PERFORMANCE

High technology allied with low cost.

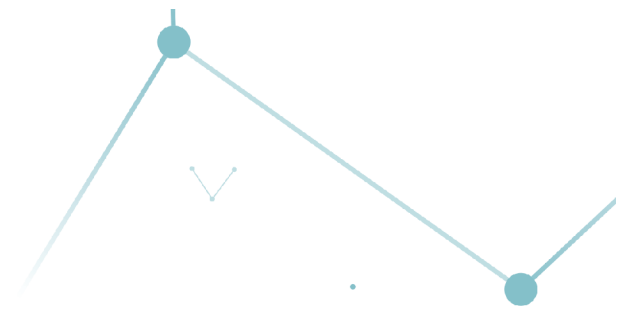

# CARTESIAN ROBOT

## 3 Axis

Designed to offer the best value for money, the cartesian robot G3 - S3 combines high technology and low cost. With 100% national manufacturing, intuitive programming and low maintenance costs, this robot series is the right choice for reducing production costs.

The G3 - S3 robots are perfect for handling operations of injected parts, supporting the extraction and stacking of pieces, metal inserts, etc.

Model	IMM	Course			Capacity
		X	Y	Z	
G3-800-S3	Up to 250 Ton	800mm	800mm	1500mm	5kg
G3-1000-S3	250 to 450 Ton	1000mm	1000mm	1650mm	8kg
G3-1200-S3	450 to 650 Ton	1200mm	1200mm	1800mm	10kg
G3-ESP-S3	250 to 1000 Ton	800 a 3600mm to	800 a 2800 mm to	1200 a 6000mm to	Máx. 40kg
